Myra

If I can do all the work in one mobilization, I think that we will start late June and go for around 3 weeks. That assumes the contractor can get all the access agreements required and line up the all of the equipment required and the Gulf does not through a storm at us.

Thanks

Hi Brian – thanks for the projection
What month do you think it will take place?
Thanks

Myra

I just realized that I was looking at the original and not revised Sampling Plan and that numbers for soil sampling are incorrect. I have attached a revised spreadsheet with the correct number of samples for soils.

Thanks
